Summary

Front-End Developer specializing in React.js, adept at transforming Figma designs into responsive ,high-quality applications. Experienced in Agile environments, delivering clean, maintainable code adhering to SOLID principles. Proficient with GitHub for version control and collaboration, and skilled in using Postman for API testing. Passionate about creating seamless user experiences through modern development practices.

Technical skills

- HTML 5
- Css 3
- Javascript & ES6
- Bootstrap/ Tailwind

- React.js
- Reduxtoolkit / Context Api
- Interceptor
- Firebase / Supabase

Projects

E-commerce Developed with React.js, Redux Toolkit, and React Router DOM for dynamic routing. Integrated a RESTful API for seamless data operations and employed Tailwind CSS to create a modern, responsive UI. Additionally, built an intuitive admin dashboard for efficient management.

Tasty Bites restaurant web application built with React. It includes user authentication, online food ordering, reservation management, and an AI-powered chat assistant for customer support. The platform also features an admin dashboard for managing orders, menu items, and customer feedback.
